

Ae voltages for neurons (0 - 400) from $t = 0$ to 500

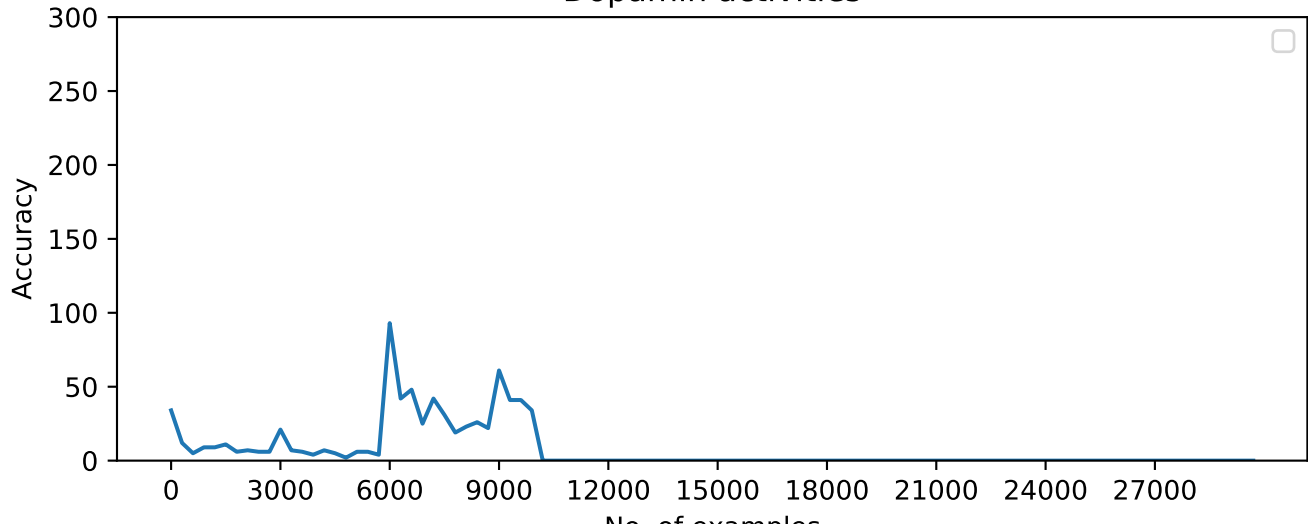

Ai voltages for neurons (0 - 400) from $t = 0$ to 500

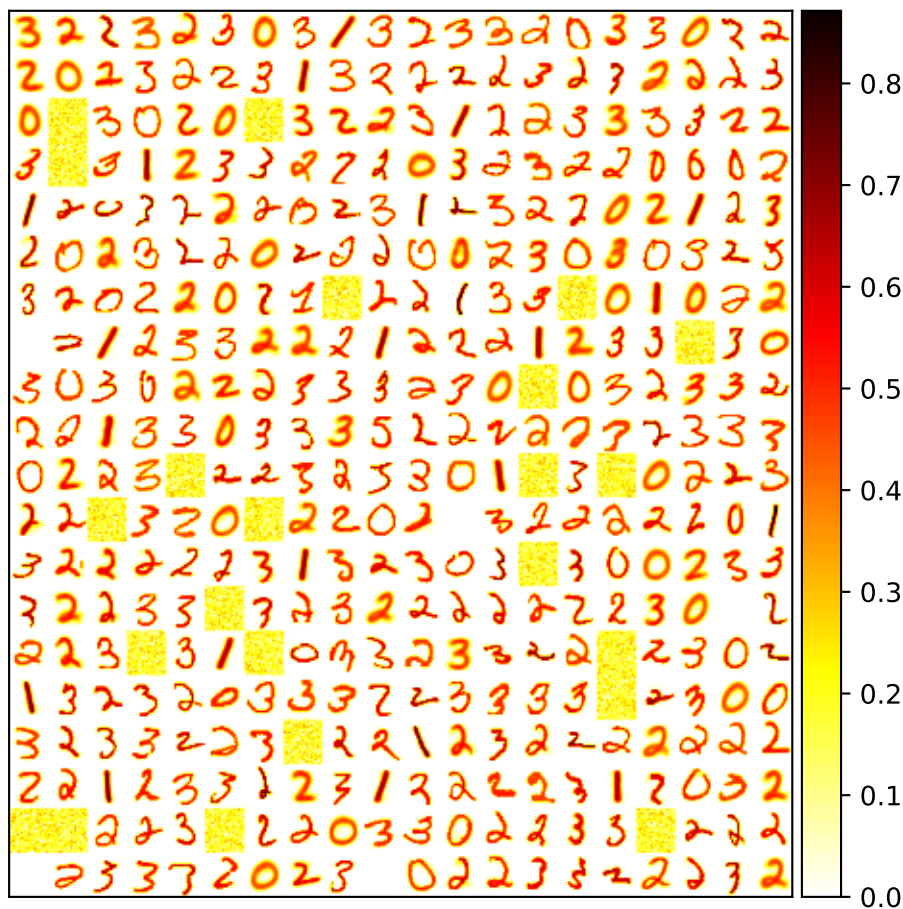

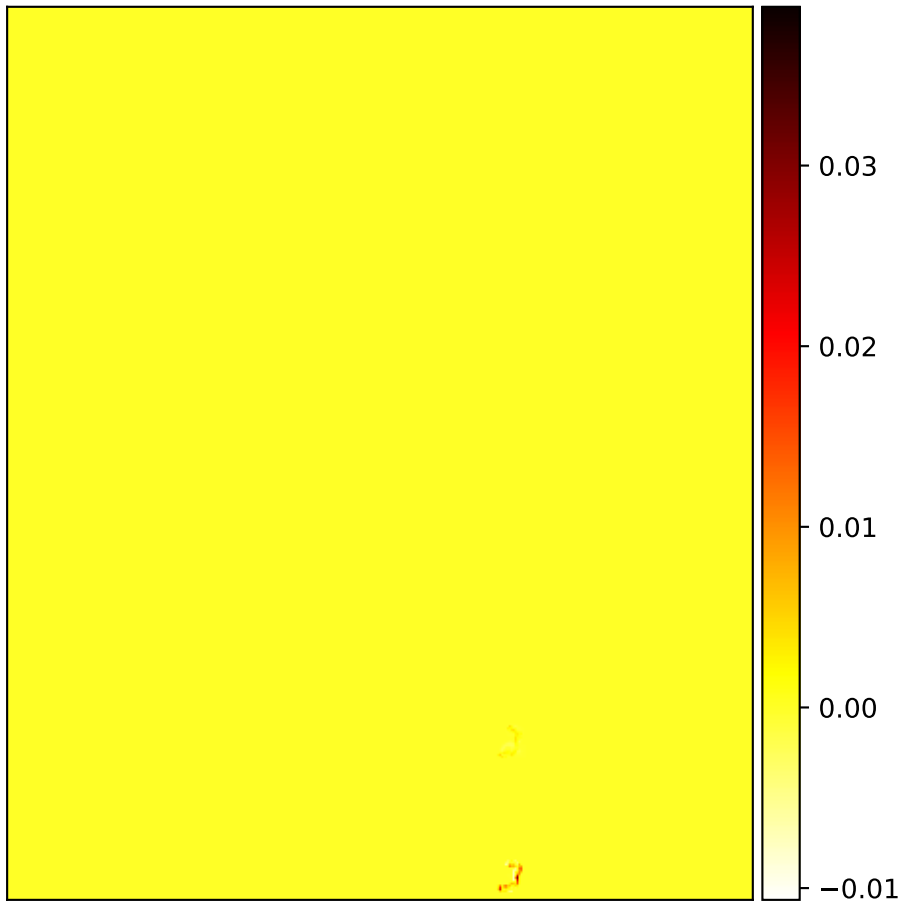

Dopamin voltages for neurons (0 - 1) from $t = 0$ to 500

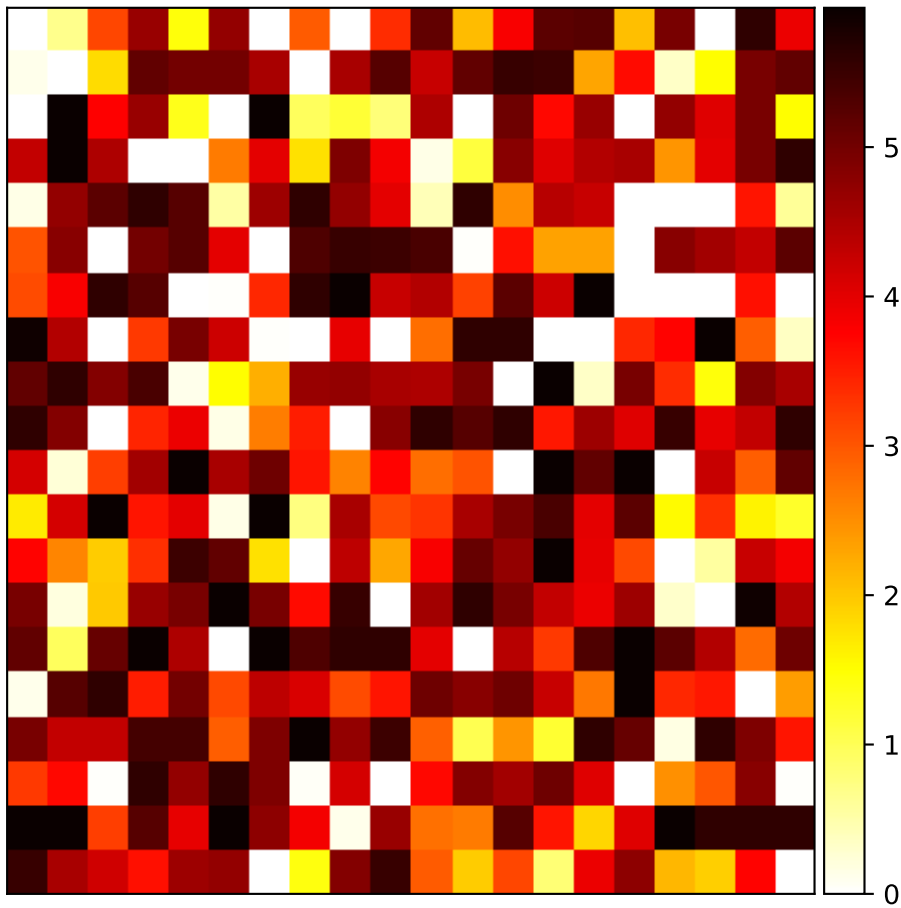

Dopamin activities

A 20x20 grid of small square images, each representing a handwritten digit from the MNIST dataset. The digits are rendered in white and light orange against a dark red background. The digits are scattered across the grid, with some appearing more clearly than others. The overall pattern is noisy and abstract due to the small size and high contrast of the individual images.
